Most Portables for  
Easy Transport*

*Sealed Fresh  
Water Tank*

*Foot Pump  
Operated*

*Sealed tank keeps debris out and  
freshness in. Use chlorine to kill  
bacteria in water without loss though  
evaporation*

Protect yourself and others against water contamination with the Breeze. Its large twenty gallon fresh water tank with screw on lid keeps water fresh, and is easily removed for cleaning. With dual stations and a slender design, the Breeze travels easily inside most portables and provides plenty of washes upon arrival.

The contemporary design makes the Breeze a natural fit at special events. This tall upright wash station, with its sleek lines, will have special appeal to event organizers. The Breeze also works great at construction sites because it locks to prevent vandalism. It has a small footprint and four large molded handles making it easy to lift and store in a secured area at night if necessary.

Styling, strength, security and added protection make this the ultimate hand wash unit for those concerned with sanitation. For all others, its one more reason to select Satellite as your hand wash station supplier.

# EASY TO FILL, CLEAN AND TRANSPORT

## SPECIFICATIONS

Weight (empty): 56 pounds  
Width : 22''  
Depth: 20''  
Height : 60.25''

*Convenient foot pump delivers a steady stream of water for full fingertip to elbow cleaning.*

- Freestanding - not dependent on toilet
- Color: Satellite Grey
- Full bottom plate for wear resistance, stability and 4 stakedown holes.
- Latch / Hasp: Hidden latch to access fresh tank. Recesses for customer installed hasp.
- Fits inside most portable toilets (Tufway, Maxim 3000, Poly John PJN3, Poly Portables, Synergy Taurus) to transport.
- Two stations (basins). Basin is 22" wide for fingertip to elbow wash.
- 20 gallon fresh water capacity. Sealed 3 1/2 inch screw off cap and tank design that prevents use of waste wand for pumping. Tank is secured with a metal pipe. When removed, fresh water tank can be lifted out for major cleaning.
- 20 gallon grey water capacity. Grey water is around fresh tank with obvious pump area.
- Foot Pump operated (standard Satellite baby foot pump)
- Optional Satellite single fold or multifold towel dispensers. Optional 800 ml or 1000 ml bag-in-box soap dispensers. Unit can be ordered without dispensers. Large space on tower will accommodate a wide variety of dispenser shapes and styles.
- Heavy duty nozzles molded into housing.
- Sealed fresh water tank to enable putting chlorine in fresh water tank to kill bacteria.
- Standard 2" drain plug in recessed hole
- Graphics: Molded in- "Do not Drink/No Beber" (2), Do not drink symbol (2)
- Decals - "Do Not Drink" and pump use instructions.
- Optional bracket to allow customer to attach standard plastic or other waste basket
