

Liberty

Why?

Developed as an alternative to full ADA compliant restrooms, the Liberty is a spacious, wheelchair-accessible restroom that can also be promoted as a family-sized restroom. It has a patented flat-floor system for easy wheelchair access and maneuverability. The handrails and paper holder, together with the rotary latch, are designed and manufactured for simple end-user operation.

Operators have the distinct advantage of owning a restroom made from high molecular weight polyethylene that is durable and vandal-resistance. The entire door frame, which is made of a vacuum-formed twin sheet, is able to withstand hard hits and endless pounding without bending or buckling like metal frames. The patented flat-floor system, combined with the strength of the side walls and capped roof, forms a sleek, modern restroom that retains its shape over the life of the product.

Features

Drilled holes on all four corners allow users to tie down the unit in case of severe storm or theft.

Four exterior-mounted handles make positioning hassle-free.

Strong handrails on two sides ensure customers remain safe and secure while in use.
